CUSTOMIZATIONS

- RFID chip installation
- Customized and monochromatic hot printings
- Labels with sequential numbering, barcode or QR code

FEATURES

1. Body

- Truncated pyramid shaped with rectangular base and rounded corners
- Perforated walls and bottom with a structure of overlapping niches
- Rounded upper edge, designed for compostable bags
- Raised bottom facilitating the lifting of bags and room designed to contain any liquid waste spill
- Smooth front available for customizations (80 x 80 mm circa)

2. Lid

- Secured to the body with two solid back hinges
- Ventilated due to the holes for the evaporation of the content
- Surface available for customizations (100 x 25 mm circa)
- Lid-locking handle
- Total opening at 270° and easily replaceable for maintenance

3. Handle

- Ergonomic, reinforced and with a variable sectional structure
- Lid-locking handle combined with an automatic unlocking system for the emptying
